"This Placement Area is located within sensitive habitat that is designated critical habitat for the threatened and endangered piping plover; therefore, movement of equipment outside the levees is prohibited except along the Channel side. There is a possibility that the levee crown and interior of this Area may be used by nesting colonial water birds. Two (2) weeks prior to disposal into the Area, the Contractor and Government will do a joint inspection of the Placement Area to determine if nesting birds are using the Area. The nesting season generally extends from March 1st through August 31st. If active nests are found within the area, discharge into the area is prohibited until nesting activity has ceased. Similarly, movement of equipment is prohibited within 1,000 feet of any active nest."
