*Pursuing your dream begins here.*

## Who inspired you?

"As a business student, I never dreamt I would have the opportunity to find a career that supported STEM. My parents always taught me that the sky was the limit, and if I willed it, I would accomplish anything. When I was offered an internship at NASA in 2008, I didn't think twice. My life completely changed forever. Today, I work as a contract specialist supporting the Geostationary Operational Environmental Satellite-R Series (GOES-R) Project, and I love it!"
