

STEM INSPIRATION

Rep. Randy Weber
Congressman, 14th District of Texas
Vice Chair of the Energy Subcommittee
on Science, Space and Technology

Pursuing your dream begins here.

Who inspired you?

“Ronald Reagan inspired me to work for our country’s continued greatness. He believed in smaller government and individual freedom coupled with responsibility or, what I call “American Exceptionalism.” I wanted America to remain the world leader in technology, trade, freedom and militarily. In short, I wanted to help make America greater and greater for generations to come.”

Education

Graduate of Alvin Community College; Bachelor of Science from the University of Houston at Clear Lake.

U.S. Army Corps of Engineers Galveston District
