

STEM INSPIRATION

Vicente Gonzales
Electrical Engineer
U.S. Army Operational Test Command
Fort Hood, Texas

Pursuing your dream begins here.

Who inspired you?

"I remember participating in a career day in junior high school and being asked the question, 'Have you ever taken something apart to see what makes it work?' Answering 'yes' to that question was my first exposure to engineering. Throughout my high school years, the continuing guidance and support of my teachers and counselors convinced me to pursue an engineering degree. This decision was reinforced when I was awarded a full academic engineering scholarship as a result of their mentorship and found a love for mathematics and science. I will be forever grateful to all these wonderful people for their encouragement and perseverance as I was the first in my family to go to college."

Education

Bachelor of Science in Electrical Engineering, Texas A&M University, College Station, Texas

U.S. Army Corps of Engineers Galveston District
