Pursuing your dream begins here.

Who inspired you?

"I grew up in the Mojave Desert, not the likeliest place to fall in love with the ocean. In elementary school I read about ichthyologist Dr. Eugenie Clark. They called her the shark lady and her life captivated me. Her success made me feel that I could do anything I set my mind to. While I've never met her, her legacy inspired me to pursue my degree in marine biology."

Education
