

# STEM INSPIRATION

**Camsie McAdams**  
Senior Advisor on STEM Education  
U.S. Department of Education  
Washington, D.C.

*Pursuing your dream begins here.*

## Who inspired you?

"First and foremost, my parents inspired me to love science and math – my dad is a geologist and worked for 30-plus years for the Department of the Interior. My mom was trained as a botanist/biologist, but worked as an educator, Unitarian Universalist Minister and a public school science teacher. I was raised to be curious and outspoken, to experiment and be bold in my beliefs. I turned to public school education and have been working to inspire the future generation of STEM leaders for the past 15-plus years!"

## Education

Bachelor of Arts in general engineering and political science, University of Denver and Master of Education, Harvard Graduate School of Education.

U.S. Army Corps of Engineers Galveston District
