

STEM INSPIRATION

Celeste McCuish Cruse

**Life Science Teacher
Lawrence School
Falmouth, Mass.**

Pursuing your dream begins here.

Who inspired you?

“Living in New England, with close proximity to the shore, I fell in love with the ocean. As far back as I can remember, I wanted to be Jacques Cousteau, take fantastic voyages on Calypso and discover cool things in the oceans of the world. I earned my biology degree, worked as a marine biologist and then as an entomologist. Now I teach life science to junior high students and hope to instill in them a love of science through my passion and enthusiasm in my labs and lessons. Bill Nye (the Science Guy) is my current hero!”

Education

Bachelor of Science in Marine Biology, University of New England (1980)
Master’s degree in Curriculum and Teaching, Fitchburg State College (2011)

U.S. Army Corps of Engineers Galveston District
