

# Dr. Teresita Munguia

Assistant Professor of Chemistry  
Our Lady of the Lake University  
San Antonio

# STEM INSPIRATION

*Pursuing your dream begins here.*

## Who inspired you?

"I became interested in teaching university students when I myself was a student. While studying toward a degree in chemistry and biology, it seemed that I would end up explaining the theory and lesson in a manner that could be understood by my peers. Through the inspiration of my mother and father (both educators) and an excellent chemistry professor, Anna Lowry, I realized that I had the desire and insight to teach those who were novices."

## Education

Bachelor of Arts in Chemistry, Our Lady of the Lake University; Ph.D. in Material Science and Engineering, University of Texas at El Paso.

U.S. Army Corps of Engineers Galveston District
