

STEM INSPIRATION

Joseph L. Amato

Robotics Engineer

U.S. Army Operational Test Command

Fort Hood, Texas

Pursuing your dream begins here.

Who inspired you?

"I have always been a hands-on person, but I never knew what I wanted to do in life. During my senior year of high school, I had an amazing physics teacher that helped show me how to use engineering principles to solve problems. He encouraged me to join our schools Lemelson-MIT InvenTeams group, where we had to invent a product or item to solve a problem. It was there that I learned how to both find innovative solutions to tough problems and how to see those solutions realized."

Education

Bachelor of Science in Robotics Engineering, Worcester Polytechnic Institute

U.S. Army Corps of Engineers Galveston District
