

STS-134 TRAINING TEAM - September 8, 2010

STEM INSPIRATION

Dr. Mamta Patel Nagaraja
Aerospace and Biomedical Engineer and Scientist
Women@NASA Project Manager
NASA Johnson Space Center
Houston

Pursuing your dream begins here.

Who inspired you?

"My sister was my biggest role model and she would come home from school and repeat all of her science experiments with the younger siblings. That experience is what gives me confidence that the best influences can come right from your own inner circle. You don't need the CEO of a major company or a famous person or an astronaut to mentor you to success. Just look around and don't be afraid to ask!"

Education

Bachelor of Science in Aerospace Engineering, Texas A&M University; Master of Science in Mechanical Engineering, Georgia Institute of Technology; Ph.D., Bioengineering, Georgia Institute of Technology/Emory University.

U.S. Army Corps of Engineers Galveston District
