Pursuing your dream begins here.

Who inspired you?

"I am the first generation son of Cuban exiles and the first in my family to graduate from college. My inspiration was seeded from my loving parents; even though they left their homeland for political reasons, they never stopped pursuing the American dream and encouraging me to think big knowing that a quality education is the key to success in any endeavor. There is no challenge or circumstance, no matter your background, that cannot be overcome if you put your mind to it and remember those that inspired you to achieve."
