

STEM INSPIRATION

A portrait of Pete Perez, a man with short grey hair and glasses, wearing a dark suit, light blue shirt, and a red patterned tie. He is looking directly at the camera with a neutral expression. The background is split: the left side shows the stars of the American flag, and the right side shows a red background with a white and red geometric pattern.

Pete Perez

Director, Regional Business Program
U.S. Army Corps of Engineers Southwestern Division

Pursuing your dream begins here.

Who inspired you?

"My influence was my parents. My motivation was driven by meeting their expectation that I go to college, continue my education in whatever field appealed to me and make a difference with the opportunity I was given. The imperative is the message about the importance of education and the opportunities it provides to people to enable them to do something special and make a difference."

Education

Bachelor of Science in civil engineering, Texas A&M University (1985) and a Master of Science in environmental management, The University of Texas at San Antonio (1997).
