

# STEM INSPIRATION

**Dr. Ralf Krahe**

Professor of Genetics  
University of Texas Graduate School  
of Biomedical Sciences at Houston

*Pursuing your dream begins here.*

## Who inspired you?

"From the time I was a little boy, my parents instilled in me the desire to learn and explore. There were several wonderful teachers along the way who helped foster that desire. But it was my high school biology teacher, Dr. Hermann Weber, who felt called to teach and inspire high school children. He showed me the joy of discovery, which continues to drive me. Through his exciting genetics lectures he inspired me to pursue a career in human and cancer genetics research at The University of Texas MD Anderson Cancer Center."

## Education

Bachelor of Science in Microbiology, University of Arkansas; Ph.D. in Genetics, University of Texas Graduate School of Biomedical Sciences at Houston.

U.S. Army Corps of Engineers Galveston District
