## **Alicia Rea**

Director, Emergency Management and Security  
U.S. Army Corps of Engineers Galveston District

Alicia Rea has worked for the Galveston District Corps of Engineers since 2002, first as a Navigation Operations Project Manager, then as a Regulatory Project Manager and most currently as the Director of Emergency Management and Security for the district.

Ms. Rea has been active in disaster response and recovery operations since 2004. She has led the district in responses to Hurricane Ike, the historic "Tax Day" Flooding in Houston, Hurricane Harvey and countless others. She also serves the nation as an Assistant Team Lead for Emergency Support Function #3 as part of the National Response Framework.

She graduated in 2002 from Texas A&M Galveston with a Bachelor of Science in Ocean and Coastal Resources and a Master of Marine Resource Management degree in 2003.
