BIOGRAPHY

Jeffrey Collin Neill

Chief of Contracting
U.S. Army Corps of Engineers Galveston District

Jeffrey Collin Neill is the District Chief of Contracting with the U.S. Army Corps of Engineers, Galveston District, where he is the principal procurement official responsible for managing the district's contracting program.

Mr. Neill re-established the District's Contracting Division in November 2018, which previously was a branch in the Fort Worth District. Today he continues to grow and mature the contracting resources needed to meet the district's expanding mission.

Mr. Neill has worked for USACE for three years. Previously, he was the Director of Contract Administration and the Federal Liaison for the Texas A&M Center for Innovation in Advanced Development and Manufacturing (CIADM) located in College Station, Texas, where he was responsible for prime and subcontractor management for the CIADM's pandemic influenza program.

Mr. Neill earned a Bachelor of Science in Psychology from Texas A&M University and a J.D. from the University of Texas. He enjoys volunteering for the Brazos Valley Center for Independent Living (BVCIL), where he serves on the Board of Directors. He also enjoys traveling with his wife and three children and watching Aggie football
