

In order to satisfy the U.S. Environmental Protection Agency's procedural requirements of filing Draft Environmental Impact Statements in the eNEPA database, the U.S. Army Corps of Engineers (USACE) is resubmitting the Draft Integrated Feasibility Report and Environmental Impact Statement (DIFR-EIS) for the Gulf Intracoastal Waterway (GIWW) Brazos River Floodgates (BRFG) and Colorado River Locks (CRL). This DIFR-EIS has considered and addressed public and agency comments from the initial public and agency comment period, which occurred from 26 February 2018 to 11 April 2018. It is anticipated that the Final IFR-EIS will be released after the close of this comment period.

The DIFR-EIS can be viewed and downloaded from the USACE's Galveston District website: <http://www.swg.usace.army.mil/Business-With-Us/Planning-Environmental-Branch/Documents-for-Public-Review/>. Comments can be mailed to Daniel Allen, Regional Planning and Environmental Center, 819 Taylor St., Room 3A12, Fort Worth, TX 76102 or by email to BRFG_CRL_FeasibilityStudy@usace.army.mil.
