Galveston District Leadership and Mission

Commander: COL David Dake

(Assumed Command from COL Rhett Blackmon on 29 July 2025)

Deputy District Engineer for Programs and Project Management Division (DPM): Byron Williams

Mission: Deliver vital engineering solutions, in collaboration with our partners, to secure our Nation, Energize our economy, and reduce disaster risk.

Mission Areas: Navigation, Flood Risk Management, Ecosystem Restoration, Shoreline Protection, Regulatory Services, Emergency Management, Environmental Stewardship

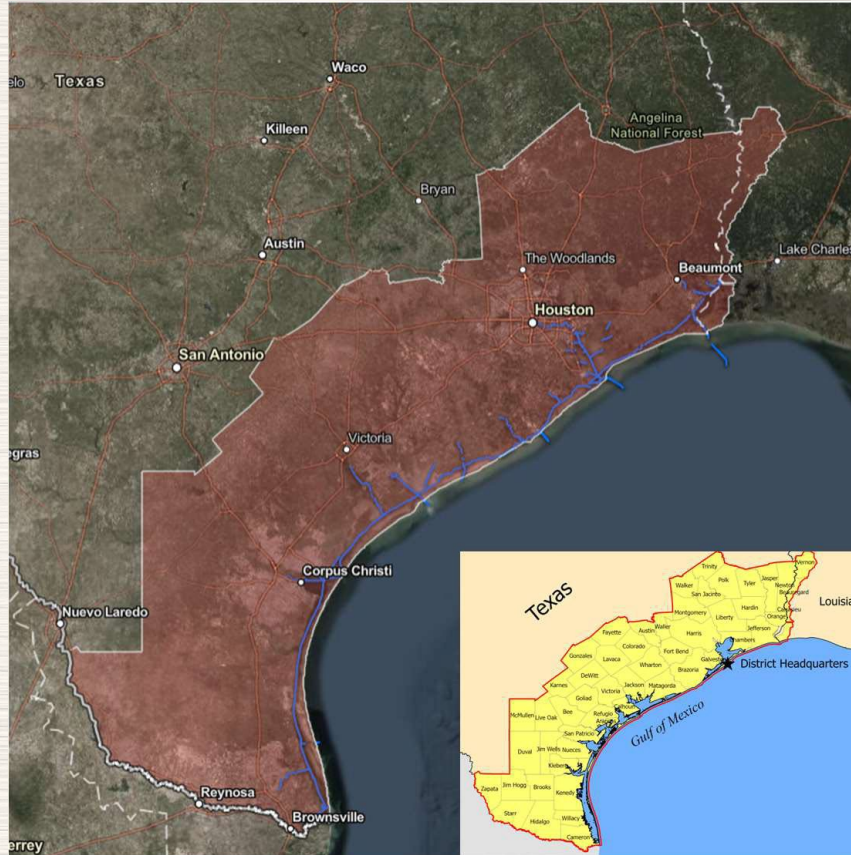

U.S. ARMY

US Army Corps
of Engineers®

Galveston District Value To The Nation

- Galveston District's boundaries cover 460 miles of coastline across 48 Texas Counties.
- Galveston District maintains over 1,000 miles of navigation channels and waterways.
 - 240 miles deep draft channels:
 - 15 deep draft ports
 - 3 ports in the top 10 nationwide ranked by total tonnage (Port Houston ranked #1)
 - 760 miles shallow draft channels:
 - 13 shallow draft ports
 - Gulf Intracoastal Waterway links the entire system
- Coastal Storm Risk Management Mission

Federal Acquisition Regulation (FAR) Overhaul

Under [Executive Order 14275](#), Restoring Common Sense to Federal Procurement, the federal government is undertaking the most significant update to its procurement rules in more than 40 years.

Further insight into the initiative and development of a new Strategic Acquisition Guidance framework is available in the related [OMB memorandum M-25-26](#).

This revolutionary effort will:

- remove non-statutory requirements
- rewrite the FAR in plain language
- create a faster, more agile, and mission-focused acquisition system.

The goal is to empower our acquisition workforce to deliver capabilities faster, with greater value and better results for our military and nation.

Visit the [Acquisition.gov](#) site to learn more about this initiative and provide your feedback.

Operations Dashboard

The USACE Operations Dashboard is a web application that provides location-aware data visualization and analytics for a real-time operational view of navigation contracts, draft restrictions, and hydrographic survey information. From a dynamic dashboard, managers and stake holders can access the latest information on contract schedules, status and milestones to make informed decisions at a glance.

[Click here](#) for guidance on how best to use the dashboard. *For optimum functionality use Chrome or Firefox.*
