## **Sheridan “Sheri” Willey, P.E.** Deputy Chief Project Management U.S. Army Corps of Engineers Galveston District

Sheridan “Sheri” Willey, P.E. serves as the U.S. Army Corps of Engineers (USACE) Galveston District’s project management deputy chief. In this position, she oversees projects in a broad range of business lines, including flood risk management, deep draft navigation, and ecosystem restoration.

Willey also directs numerous ongoing projects including the Houston Ship Channel Improvement project, Sabine Neches Waterway project and overseeing project managers in support of the Division’s Interagency and International Support program.

Before her current position, she was project manager for the Coastal Texas Feasibility Study—a \$19.8 million mega study—and a regional technical specialist for water resources, responsible for developing decision documents for Congress to authorize implementing civil works projects for navigation and flood risk management studies.

Willey has more than 20 years of experience working with USACE. She earned a Bachelor of Science in Civil Engineering from Texas A&M University.

She is also a registered professional engineer in the state of Texas.
