This page contains a detailed map of the Gulf Intracoastal Waterway from Port Bolivar to Galveston Causeway, with annotations and data points. The map includes various features such as channel stations, areas to be dredged, and reference points. The map is accompanied by a legend and scale bar for reference. The text on the page provides additional information about the survey dates and the project design process. The map is part of a larger document, possibly related to the Corps of Engineers, and contains various data points and annotations.
Gulf Intracoastal Waterway: Port Bolivar to Galveston Causeway

Channel Dimensions

1. Horizontal coordinates are referenced to Texas State Plane Coordinate System, South Central Zone NAD83 US Survey Feet.
2. Elevations are referenced to Mean Lower Low Tide (MLLW) Datum.
3. This project was designed by the Galveston District of the U.S. Army Corps of Engineers. The initials and signatures and registration noted on the plans are required by ER1110-1-8152.

Additional Info: Combined survey dates 20200403, 20200415, 20200804

Scale: 1:3,200

Survey Dates: 04 August 2020
