Sabine Neches Waterway: Channel Extension C

Note: This map is intended to provide a visual reference to the area depicted in the map. It is not a map of record and should not be used for navigation or legal purposes. The accuracy of the map is not guaranteed and it is the responsibility of the user to verify its accuracy. The map is provided "as is" without warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement.

The National Geophysical Data Center. Surveys vary as to sounding density, type of data acquisition, and type of instrumentation.

1. Horizontal coordinates are referenced to Texas State Plane Coordinate System, South Central Zone NAD83 U.S. Survey feet.
2. Elevations are referenced to Mean Lower Low Tide (MLLW) Datum.
3. This project was designed by the Galveston District of the U.S. Army Corps of Engineers. The initials and signatures and registration number required by ER1110-1-8152.
4. NOAA Bathymetry contours produced from historic bathymetric (hydrographic) surveys. For the most up to date information please check our website at: http://wwwSWG.usace.army.mil/missions/navigation/hydrographic-surveys/
5. The accuracy of depth, accuracy of navigation, zero datum, date of survey and type of instrumentation.
6. NOAA Bathymetry produced from historic bathymetric (hydrographic) surveys. For the most up to date information please check our website at: http://wwwSWG.usace.army.mil/missions/navigation/hydrographic-surveys/
7. The National Geophysical Data Center. Surveys vary as to sounding density, type of data acquisition, and type of instrumentation.

The national grid is the World Geodetic System (WGS) 1984, datum is the North American Datum 1983 (NAD83). All positions are referenced to the WGS 1984 datum and the associated coordinate frame and are in U.S. State Plane Co-ordinate System, South Central Zone NAD83 U.S. Survey feet. The grid reference system is the High Performance Spatial Reference System (HPSRS) referenced to the WGS 1984 datum and the associated coordinate frame. This map is a representation of the waterway at the time of publication and is subject to change due to natural and man-made events.
