¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Site 1 consists of the existing Hidalgo County right-of-way (ROW) on Los Veteranos Road from Seminary Road to La Jarita Road, and Site 2 consists of the existing Hidalgo County ROW on Benito Ramirez Road from Doolittle Road to Brush Line Road. Based on the Corps evaluation of these two review areas, the Corps has determined that there are no features that exhibit lateral limits of jurisdictional (e.g. OHWM), and that there are no aquatic resources or potential aquatic resources that would warrant the application of a wetland delineation, significant nexus analysis, navigability determination, or delineation of the ebb and flow of the tides. Therefore, the Corps has concluded that the two review areas consist entirely of dry land.
