

Public Notice

U.S. Army Corps	Permit Application No:	SWG-2019-00697
Of Engineers	Date Issued:	29 October 2019
Galveston District	Comments Due:	2 December 2019

U.S. ARMY CORPS OF ENGINEERS, GALVESTON DISTRICT

PURPOSE OF PUBLIC NOTICE: To inform you of a proposal for work in which you might be interested. It is also to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest. The U.S. Army Corps of Engineers (Corps) is not the entity proposing or performing the proposed work, nor has the Corps taken a position, in favor or against the proposed work.

AUTHORITY: This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899.

APPLICANT:	Panther Interstate Pipeline Energy, LLC 16000 Stuebner Airline, Suite 200 Houston, Texas 77379 Telephone: 281-414-8195 Email: jshipper@pantherassetmgmt.com
AGENT:	Suzy Younger Regulatory LLC 20814 Beech Tree Drive Katy, Texas 77449 POC: Suzy Younger Telephone: 713-208-5588

LOCATION: The project site is located in the Gulf of Mexico, Offshore, Texas. The project begins at High Island Block 71 and ends at High Island Block 20. The project can be located on the U.S.G.S. quadrangle map titled: Sabine Pass, Texas.

Email: suzy@suzyyoungerreg.com

LATITUDE & LONGITUDE (NAD 83):

Latitude: 29.464444° North; Longitude: 093.94° West

PROJECT DESCRIPTION: The applicant is proposing a pipeline decommissioning of a 16-inch gas pipeline that originates at High Island Block 71 and terminates in High Island Block 20, Outer Continental Shelf, Federal Waters, Gulf of Mexico, Offshore, Texas.

AVOIDANCE AND MINIMIZATION: The applicant has stated that they have avoided and minimized the environmental impacts by requesting to decommission the pipeline without removal therefore proposing no impacts to waters of the United States. The applicant states that due to the depth of the pipeline below the seafloor, removal would cause significant disturbance and ecological damage to the seafloor.

MITIGATION: The applicant is not proposing any impacts to special aquatic sites therefore the applicant is not proposing any mitigation for this project.

CURRENT SITE CONDITIONS: The project site currently consists of a 16-inch oil pipeline offshore in the Gulf of Mexico that originates at High Island Block 71 and terminates in High Island Block 20. The existing pipeline was originally installed in 1977. Flushing operations were completed from 24 July 2018 through 27 July 2018.

NOTES: This public notice is being issued based on information furnished by the applicant. This project information has not been verified by the Corps. The applicant's plans are enclosed in 14 sheets.

A preliminary review of this application indicates that an Environmental Impact Statement (EIS) is not required. Since permit assessment is a continuing process, this preliminary determination of EIS requirement will be changed if data or information brought forth in the coordination process is of a significant nature.

OTHER AGENCY AUTHORIZATIONS: The project site is not located within the Texas Coastal Zone and therefore, does not require certification from the Texas Coastal Management Program.

NATIONAL REGISTER OF HISTORIC PLACES: The staff archaeologist has reviewed the latest published version of the National Register of Historic Places, lists of properties determined eligible, and other sources of information. The following is current knowledge of the presence or absence of historic properties and the effects of the undertaking upon these properties:

The permit area has been so extensively impacted by the original installation of the pipeline that there is no potential for historic properties to exist within the permit area. Therefore, the proposed project has no potential to effect historic properties.

THREATENED AND ENDANGERED SPECIES: Preliminary indications are that no known threatened and/or endangered species or their critical habitat will be affected by the proposed work.

ESSENTIAL FISH HABITAT: This notice initiates the Essential Fish Habitat consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Our initial determination is that the proposed action would not have a substantial adverse impact on Essential Fish Habitat or federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

PUBLIC INTEREST REVIEW FACTORS: This application will be reviewed in accordance with 33 CFR 320-332, the Regulatory Programs of the Corps, and other pertinent laws, regulations and executive orders. The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the proposal, will be those conservation. economics. considered: among are aesthetics. general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs and, in general, the needs and welfare of the people.

SOLICITATION OF COMMENTS: The Corps is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Impact Assessment and/or an EIS pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

This public notice is being distributed to all known interested persons in order to assist in developing facts upon which a decision by the Corps may be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

PUBLIC HEARING: The purpose of a public hearing is to solicit additional information to assist in the evaluation of the proposed project. Prior to the close of the comment period, any person may make a written request for a public hearing, setting forth the particular reasons for the request. The District Engineer will determine if the reasons identified for holding a public hearing are sufficient to warrant that a public hearing be held. If a public hearing is warranted, all known interested persons will be notified of the time, date, and location.

COMMENT PERIOD: All comments pertaining to this public notice must reach this office on or before **2 December 2019**. Extensions of the comment period may be granted for valid reasons provided a written request is received by the limiting date. If no comments are received by that date, it will be considered that there are no objections. Comments and requests for additional information should reference our file number, SWG-2019-00697, and should be submitted to:
