Incoming 16" Pipeline

Work Site 1

Tempest Energy Resources, LP

Work Site #1- Dickinson TB Site

GPS Coordinates: 29.457547 / -95.000179

This will be a staging area/primary work site. Flushed fluids will be captured, hauled off, & disposed of.

* Lease road & site will be cleared & prepared prior to moving equipment.

* 16" pipeline will be excavated & equipped to tanks. Tanks consisting of 5-500 bbl. frac tanks and 1-open top tank w/gas buster. Tanks to be positioned in white shaded area.

* Fluids to be hauled off by vacuum trucks following blue route.

* After purging operations have been completed, 16" w/valve will be buried a minimum 3' below ground level. Location will then be leveled.
