**U.S. Army Corps  
Of Engineers**

**Galveston District**

Permit Application No: SWG-2004-00388

Date Issued: 15 March 2022

Comments

Due: 14 April 2022

---

## U.S. ARMY CORPS OF ENGINEERS, GALVESTON DISTRICT

**PURPOSE OF PUBLIC NOTICE:** To inform you of a proposal for work in which you might be interested. It is also to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest. The U.S. Army Corps of Engineers (Corps) is not the entity proposing or performing the proposed work, nor has the Corps taken a position, in favor or against the proposed work.

**AUTHORITY:** This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act (CWA).

**APPLICANT:** Peninsula Marine  
P.O. Box 501  
Port Bolivar, Texas 77650  
POC: Darby Mouton  
Telephone: 409-682-6552  
Email: [wayne@peninsulamarine.com](mailto:wayne@peninsulamarine.com)

**AGENT:** Gulf Project Solutions  
P.O. Box 580561  
Houston, Texas 77258  
POC: Richard Tomlinson  
Telephone: 281-989-6788  
Email: [richard@gulfproject.org](mailto:richard@gulfproject.org)

**LOCATION:** The project site is located in Gulf Intracoastal Waterway (GIWW), at Lighthouse Mooring Facility East, 1501 Rankin Road, in Port Bolivar, Galveston County, Texas. The project can be located on the U.S.G.S. quadrangle map titled: Port Bolivar, Texas.

**LATITUDE & LONGITUDE (NAD 83):**

**Latitude:** 29.385379 North; **Longitude:** -94.767648 West

**PROJECT DESCRIPTION:** The applicant proposes to perform dredging activity, discharge dredged material into GIWW, and rehabilitate a deteriorating bulkhead for the purpose of bank stabilization and erosion protection at mooring facility. Such activities include the mechanical dredging of 1,930 cubic yards of material from 0.28-acre area, discharge of dredged material into GIWW, and install a 437-linear-foot section of concrete or metal sheet pile bulkhead.

**AVOIDANCE AND MINIMIZATION:** The applicant has not provided avoidance and minimization statements.

**MITIGATION:** The applicant has not proposed any compensatory mitigation.

**CURRENT SITE CONDITIONS:** The project site is located within a developed lot in an industrial area of Bolivar Peninsula, to the north is an undeveloped marsh area, to the west are other mooring facilities, and residential areas to the south and east.

**NOTES:** This public notice is being issued based on information furnished by the applicant. This project information has not been verified by the Corps. The applicant's plans are enclosed in 33 sheets.

A preliminary review of this application indicates that an Environmental Impact Statement (EIS) is not required. Since permit assessment is a continuing process, this preliminary determination of EIS requirement will be changed if data or information brought forth in the coordination process is of a significant nature.

Our evaluation will also follow the guidelines published by the U.S. Environmental Protection Agency pursuant to Section 404 (b)(1) of the CWA.

#### **OTHER AGENCY AUTHORIZATIONS:**

Consistency with the State of Texas Coastal Management Plan is required. The applicant has stated that the proposed activity complies with Texas' approved Coastal Management Program goals and policies and will be conducted in a manner consistent with said program.

The proposed project will trigger review under Section 401 of the Clean Water Act (CWA). The Texas Commission on Environmental Quality (TCEQ) will review this application under Section 401 of the CWA and in accordance with Title 30, Texas Administrative Code Section 279.1-13 to determine if the work would comply with State water quality standards. The applicant has not yet reached out to the TCEQ to initiate the Section 401 CWA process. If you have comments or questions on this proposed project's State water quality certification, please contact [401certs@tceq.texas.gov](mailto:401certs@tceq.texas.gov). You may also find information on the Section 401 process here: <https://www.epa.gov/cwa-401/basic-information-cwa-section-401-certification>.

This public notice will serve as the notification to the Environmental Protection Agency (EPA) Regional Administrator pursuant to Section 401(a)(2). The Regional Administrator is responsible for performing a review of the application/certification to determine if there is reason to believe that a discharge may affect the quality of the waters of any State or States other than the State in which the discharge originates. If EPA determines that the proposed discharge may affect the quality of the waters of any state other than the state in which the discharge will originate, it will so notify such other state, the District Engineer, and the applicant. If such notice or a request for supplemental information is not received within 30 days of issuance of this public notice, the District Engineer will assume EPA has made a negative determination with respect to Section 401(a)(2).

**NATIONAL REGISTER OF HISTORIC PLACES:** The staff archaeologist has reviewed the latest published version of the National Register of Historic Places, lists of properties determined eligible, and other sources of information. The following is current knowledge of the presence or absence of historic properties and the effects of the undertaking upon these properties:

The permit area has been so extensively impacted by industrial development that there is no potential for historic properties to exist within the permit area. Therefore, the proposed project has no potential to effect historic properties. The permit area has been so extensively impacted by industrial development that there is no potential for resources of concern to the Native American Tribes to exist within the permit area.

**THREATENED AND ENDANGERED SPECIES:** Preliminary indications are that no known threatened and/or endangered species or their critical habitat will be affected by the proposed work.

**ESSENTIAL FISH HABITAT:** This notice initiates the Essential Fish Habitat consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Our initial determination is that the proposed action would not have a substantial adverse impact on Essential Fish Habitat or federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

**PUBLIC INTEREST REVIEW FACTORS:** This application will be reviewed in accordance with 33 CFR 320-332, the Regulatory Programs of the Corps, and other pertinent laws, regulations and executive orders. The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the proposal, will be considered: among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs and, in general, the needs and welfare of the people.

**SOLICITATION OF COMMENTS:** The Corps is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Impact Assessment and/or an EIS pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

This public notice is being distributed to all known interested persons in order to assist in developing facts upon which a decision by the Corps may be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

**PUBLIC HEARING:** The purpose of a public hearing is to solicit additional information to assist in the evaluation of the proposed project. Prior to the close of the comment period, any person may make a written request for a public hearing, setting forth the particular reasons for the request. The District Engineer will determine if the reasons identified for holding a public hearing are sufficient to warrant that a public hearing be held. If a public hearing is warranted, all known interested persons will be notified of the time, date, and location.

**CLOSE OF COMMENT PERIOD:** All comments pertaining to this public notice must reach this office on or before **14 April 2022**. Extensions of the comment period may be granted for valid reasons provided a written request is received by the limiting date. **If no comments are received by that date, it will be considered that there are no objections.** Comments and requests for additional information should reference our file number, **SWG-2004-00388**, and should be submitted to:
