

Public Notice

**US Army Corps
Of Engineers**

Galveston District

Permit Application No: SWG-2020-00837

Date Issued: 9 March 2021

Comments

Due: 8 April 2021

**US ARMY CORPS OF ENGINEERS, GALVESTON DISTRICT
AND
TEXAS COMMISSION ON ENVIRONMENTAL QUALITY**

PURPOSE OF PUBLIC NOTICE: To inform you that the Galveston District is seeking to issue a Regional General Permit (RGP) for work affecting navigable waters. It is also to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest. The US Army Corps of Engineers (Corps) is not the entity proposing or performing the proposed work, nor has the Corps taken a position, in favor or against the proposed work.

AUTHORITY: This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act (CWA).

APPLICANT: US Army Corps of Engineers
Galveston District – Regulatory Division
P.O. Box 1229
Galveston, Texas 77553-1229

LOCATION: Within navigable waters of the US located in the Sabine-Neches Waterway (SNWW) along with all side, access, and bypass channels as well as any immediate adjacent affected waters, excluding all sanctuaries and refuges, located in Jefferson County, Texas.

PROJECT DESCRIPTION: This proposed regional general permit authorizes work in navigable waters of the US to facilitate utility line removals as ordered by the Corps' District Engineer Directive to Remove letters sent out on behalf of the Secretary of the Army for the construction of the Federally authorized Sabine-Neches Waterway Channel.

The draft RGP is posted on the website for download, in 14 sheets. A map of the SNWW CIP is also available for on the website for download, in 1 sheet.

A preliminary review of this application indicates that an Environmental Impact Statement (EIS) is not required. Since permit assessment is a continuing process, this preliminary determination of EIS requirement will be changed if data or information brought forth in the coordination process is of a significant nature.

Our evaluation will also follow the guidelines published by the US Environmental Protection Agency pursuant to Section 404 (b)(1) of the CWA.

OTHER AGENCY AUTHORIZATIONS: The proposed project will trigger review under Section 401 of the Clean Water Act (CWA). The applicant contacted Texas Commission on Environmental Quality (TCEQ) and submitted a pre-filing meeting request, on 4 December 2020. If you have comments or questions on this proposed project's State water quality certification process, please contact 401certs@tceq.texas.gov. You may also find information on the Section 401 process here: <https://www.epa.gov/cwa-401/basic-information-cwa-section-401-certification>. In addition, the RGP is conditioned for the return water from upland confined DMPAs not exceed 300 mg/L of total suspended solids (TSS) (refer to Section E, GC 21).

The Texas General Land Office (TxGLO) will evaluate the general permit for Consistency with the State of Texas Coastal Management Plan. The general permit was developed to comply with Texas' approved Coastal Management Program goals and policies and activities proposed under this general permit will be conducted in a manner consistent with said program (*refer to Section E, GC 20 of the proposed general permit*).

State of Louisiana Coastal Zone Management Consistency is also required.

Louisiana Department of Environmental Quality (LDEQ) water quality certification is required. Concurrent with processing of this application, the LDEQ is reviewing this application under Section 401 of the CWA and in accordance with LRS 30:2074A(3) to determine if the work would comply with State water quality standards and other applicable provisions of the CWA. By virtue of an agreement between the Corps and the LDEQ, this public notice is also issued for the purpose of advising all known interested persons that there is pending before the LDEQ a decision on water quality certification under such act. Comments concerning this application should be filed within 30 days from the date of this notice with the Office of Environmental Services using the above permit application number as reference. Comments should be sent to: Louisiana Department of Environmental Quality, Office of Environmental Services, Attn: Water Quality Certifications, P.O. Box 4313, Baton Rouge, LA 70821-4313. Additional information is on file with LDEQ, and may be inspected at any time between 8:00 A.M. and 4:30 P.M. weekdays. Copies may be obtained upon payment of cost of printing. A final decision on this application will be made within 60 days after the date of this notice. The LDEQ may conduct a public meeting to consider all comments concerning water quality if requested in writing. A request for a public meeting must contain the following information: the name, mailing address, application number, or other recognizable reference to the application; a brief description of the interest of the requester, or of persons represented by the requester; and a brief description of how the application, if granted, would adversely affect such interest.

Pursuant to Section 14 of the Rivers and Harbors Act of 1899, 33 USC 408 (Section 408), any proposed alteration of the Federal project must be evaluated for impacts to the Federal project. This is a requirement for activities that seek permission, to temporarily or permanently, alter, occupy, or use a federally authorized Corps Civil Works project. The evaluation must assure that the proposed project will not impair the usefulness of the Federal project nor will be injurious to the public interest (*refer to GC (16-18) of the proposed general permit*).

NATIONAL REGISTER OF HISTORIC PLACES: Each permit application proposed under this general permit will require a PCN to be submitted to the Corps which will then be coordinated internally with the Galveston District staff archeologist who will review the latest published version of the National Register of Historic Places, lists of properties determined eligible, and other sources of information on a case by case basis (in accordance with the National Historic Preservation Act and 33 CFR 325 Appendix C) (*refer to GC E(7-9) of the proposed general permit*).

THREATENED AND ENDANGERED SPECIES: Each permit application proposed under this general permit will require a PCN to be submitted to the Corps. Each PCN will be reviewed on a case by case basis for impacts to Federally listed threatened and/or endangered species or their critical habitat; and if required, will consult with the responsible agencies in accordance with the Endangered Species Act (*refer to GC E(12-14) of the proposed general permit*).

ESSENTIAL FISH HABITAT: This notice initiates the Essential Fish Habitat consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Each permit application proposed under this general permit will require a PCN to be submitted to the Corps. Each PCN will be reviewed on a case by case basis for potential impacts to Essential Fish Habitat (EFH) if it's applicable to that specific project. EFH impact determinations relative to specific projects and their impacts that will have the need to implement mitigation measures is subject to review by and coordination with the National Marine Fisheries Service (*refer to GC E(10-11) of the proposed general permit*).

PUBLIC INTEREST REVIEW FACTORS: This application will be reviewed in accordance with 33 CFR 320-332, the Regulatory Programs of the Corps, and other pertinent laws, regulations and executive orders. The decision whether to issue a general permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the proposed general permit, will be considered: among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs and, in general, the needs and welfare of the people.

SOLICITATION OF COMMENTS: The Corps is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed general permit. Any comments received will be considered by the Corps for our determination. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Impact Assessment and/or an EIS pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

This public notice is being distributed to all known interested persons in order to assist in developing facts upon which a decision by the Corps may be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

PUBLIC HEARING: The purpose of a public hearing is to solicit additional information to assist in the evaluation of the proposed general permit. Prior to the close of the comment period, any person may make a written request for a public hearing, setting forth the particular reasons for the request. The District Engineer will determine if the reasons identified for holding a public hearing are sufficient to warrant that a public hearing be held. If a public hearing is warranted, all known interested persons will be notified of the time, date, and location.

CLOSE OF COMMENT PERIOD: All comments pertaining to this public notice must reach this office on or before **8 April 2021**. Extensions of the comment period may be granted for valid reasons provided a written request is received by the limiting date. **If no comments are received by that date, it will be considered that there are no objections.** Comments and requests for additional information should reference our file number, **SWG-2020-00837**, and should be submitted to:
