

Permit History Table Beaumont Terminal Ship Dock 4 Project				
Permit Number	Issue Date	Permittee	Project Description	Comments
4/2-16a	2/20/1922	Pure Oil Pipeline Company	Original terminal dock #1: Construct a wharf, 150 feet long and 16 feet wide, with 2 clusters of mooring piles at 50-foot intervals at each end and 5 clusters of piles along the outer face of the wharf, also to dredge a basin in front of the wharf, 500 feet in width across the river, 800 feet in length, and 30 feet deep at MLLW	Copy of permit enclosed. Original Main Dock no longer exists.
W-N-243-41-PERMIT-214	1/10/1946	The Pure Oil Company	Main dock: Construct a timber and concrete wharf, with 2 walkways leading to shore, which will replace an existing wharf and dolphins. Also to dredge the waterway to a level of 40 feet below MLLW. Performed under existing main dock permit.	Copy of permit enclosed.
W-N-243-41-PERMIT-326	8/22/1946	The Pure Oil Company	Outfall 002: Dredge a drainage ditch ~680 feet in length.	Copy of permit enclosed. Outfall 002 is being closed by the P66 remediation group (see SWG-2017-00371 NWP)
W-N-243-41-PERMIT-363	10/22/1946	The Pure Oil Company	Main dock: Existing main dock dolphins: Construct (1) 27-pile bumper dolphin and (2) 5-pile mooring dolphins at the main dock.	Copy of permit enclosed.
W-N-243-41-PERMIT-433	4/14/1947	The Pure Oil Company	Original barge dock at current dock #2 location: Construct a timber-wharf, 37-feet wide and 50-feet long. To drive (4) 7-pile timber dolphins, and dredge to a depth of 15-feet below MLLW. Proposed "Intra-Coastal Barge Wharf".	Copy of permit enclosed. Intra-Coastal Barge Wharf no longer exists.
W-N-243-41-PERMIT-562	11/25/1947	The Pure Oil Company	Barge-Washing Dock: Construct a timber T-head wharf, 72.5 feet long and 5.0 feet wide. To drive (4) 7-pile dolphins. Proposed "barge-washing dock". Located slightly downstream of dock #2.	Copy of permit enclosed. Barge-Washing Dock no longer exists.
9595	9/21/1973	Unocal (Transferred to Phillips 66)	Maintenance dredging	Copy of permit is unavailable. No. Permit 9595 became SWG-2005-00409.
SWG-1995-02306	2/2/1978	Union Oil of California	New loading platform, four breasting dolphins, two mooring dolphins and six onshore mooring structures.	Copy of permit is unavailable. Formerly DA permit 11958.
SWG-1995-02306-01	7/27/1978	Union Oil of California	Authorized maintenance dredging and the addition of DMPA 17.	Copy of permit is unavailable.

Permit History Table Beaumont Terminal Ship Dock 4 Project				
Permit Number	Issue Date	Permittee	Project Description	Comments
SWG-1995-02306-02	9/5/1979	Union Oil of California	Authorized the addition of DPMA 18 to the permit.	Copy of permit is unavailable.
Permit Application #14111	4/10/1980	Union Oil of California	Existing barge dock #3: Construct a dock, breasting dolphins, barge fleeting, and dredge the Neches River.	Copy of permit is enclosed.
SWG-1995-02306-03	7/30/1981	Union Oil of California	Requested a 10-year extension of time for dredging was withdrawn on July 30, 1981.	Copy of permit is unavailable.
9595(01)	11/24/1987	Unocal (Transferred to Phillips 66)	Renewed maintenance dredging	Copy of permit is unavailable. No. Permit 9595 became SWG-2005-00409.
SWG-1995-02306-04	9/30/1988	Union Oil of California	Authorized 10 years of maintenance dredging.	Copy of permit is unavailable.
SWG-1995-02306-05	10/6/1989	Union Oil of California	Authorized an extension of time to construct dock work and conduct dredging activities.	Copy of permit is unavailable.
SWG-1995-02306-06	12/7/1989	Union Oil of California	Authorized Increased the area to be dredged to areas underneath and landward of the existing docks.	Copy of permit is unavailable.
SWG-1995-02306-07	8/13/1990	Union Oil of California	Authorized five steel tripod barge dolphins, a gangway and a concrete deck.	Copy of permit is unavailable.
9595(02)	8/17/1990	Unocal (Transferred to Phillips 66)	Maintenance dredging of 1,250 feet of the dock channel to a depth of minus 34 feet (mean low tide elevation).	Copy of permit is unavailable. No. Permit 9595 became SWG-2005-00409.
SWG-1992-00436	1/1/1992	Union Oil of California	Dock #2:	Copy of permit is unavailable.
19595	7/20/1992 ^a	Union Oil of California	Existing ship dock #2. Dock went into service on 8/11/1993. Perform Dredging and construct a steel pile supported loading platform and approach way with concrete decks, Piperack, dolphins, walkway, replace existing loading/unloading barge facility for larger vessels.	Copy of permit is enclosed. Construction completion notification was issued on 8/11/1993.
SWG-1995-02306-08	12/7/1995	Unocal (Transferred to Phillips 66)	Authorized an extension of time to conduct maintenance dredging for 10 years and the use of DPMA's 13, 14, 17 and 18.	Copy of permit is unavailable.

Permit History Table Beaumont Terminal Ship Dock 4 Project				
Permit Number	Issue Date	Permittee	Project Description	Comments
9595(03) Real Estate Permit DACW64-9-05-46	4/14/2005	Unocal (Transferred to Phillips 66)	DACW64-9-05-46. Real estate permit for disposal of dredge material.	Copy of permit enclosed. Real Estate Division Consent DACW64-9-05-46 Approval for placement of dredged material PA 21 and 23. Transferred to P66 6/16/16.
9595(03)	6/2/2005	Unocal (Transferred to Phillips 66)	Continuation of maintenance dredging through 12/31/2015. References permit 9595 issued 9/21/1973, which authorized maintenance dredging of the main dock. References permit 9595-01 (11/24/1987) and 9595(02) from 8/17/1990.	Copy of permit enclosed. Extension of time (9595 (03) Maintenance Dredging). Transferred to P66 on 6/16/2016.
SWG-1995-02306-09	1/1/2006 ^a	Unocal (Transferred to Phillips 66)	Proposed an additional 10 years of maintenance dredging was withdrawn on June 23, 2006	Copy of permit is unavailable.
SWG-1995-02306-10	8/15/2006	Unocal (Transferred to Phillips 66)	Authorized extending the time for maintenance dredging for an additional 10 years at docks 1, 2, and 3.	Copy of permit is unavailable.
SWG-2005-00409	11/24/2008	Unocal (Transferred to Phillips 66)	Authorized utilization of additional Dredged Material Placement Areas Nos. 18, 19, 20, and 22. Maintenance dredging for a period of 10-years.	Copy of permit unavailable. Located Transfer of Ownership to P66 only.
SWG-2015-00198 LOP	7/22/2015	Phillips 66 Company	Existing barge dock #3: Demolish and remove (4) existing tripod dolphins, replace them with 4 new monopile barge dolphins and relocate a single navigation light.	Copy of permit enclosed. LOP to remove and replace dolphins at Dock 3. AJD Form 5/18/2015.
SWG-2005-00409 Transfer of Ownership	6/16/2016	Phillips 66 Pipeline LLC	Transfer of ownership from Unocal to P66. No amendment or additional authorization associated.	Copy of Transfer of Ownership enclosed.
SWG-1992-00436 LOP	6/30/2016	Phillips 66	Letter of Permission – install two breasting monopiles at Dock #2	Copy of permit enclosed. LOP Grants permission to install to breasting monopoles at existing dock 2.
SWG-2005-00409	5/18/2017	Unocal (Transferred to Phillips 66)	Authorized maintenance dredging for a period of 10-years. This response to the request from 9/19/16 also absorbed SWG-1995-02306 for construction / dredging of multiple docks.	Paper copy is unavailable. Maintenance on two Monopile Dolphins verified under NWP 3.
SWG-1992-00436 Nationwide	1/31/2018	Phillips 66	Replace interior downstream monopole breasting dolphin (At Existing Dock 2). Pre-construction notification (PCN) submitted to USACE on 10/10/2017.	Copy of PCN cover letter 10/10/17 enclosed but NWP 3 verification is absent.
